

Periodical Bibliography List

This bibliography lists periodical articles on the LNWR, its constituents, joint companies and related subjects.

It has been produced by the LNWR Society and must not be reproduced either in whole or in part without the prior written permission of the Committee.

The search tool (Binocular icon) in the Adobe Acrobat Reader can also be used to find particular words or phrases in the document descriptions. Other PDF viewers have similar search facilities

Members knowing of additional references or finding errors are invited to inform the Librarian, who will update the Bibliography. In particular we need volunteers to list articles from any periodicals from 2013 onwards.
